

Statement on the UK Stewardship Code

Arteqin Capital Limited (ACL) is authorised and regulated by the Financial Conduct Authority and is required under COBS 2.2.3R to disclose its position on the UK Stewardship Code 2020, published by the Financial Reporting Council. The Code is voluntary and primarily aimed at asset managers and owners who engage directly with UK-listed companies to promote effective stewardship and long-term value creation. While the ACL invests in UK-listed securities, our investment strategy is global and we do not ordinarily engage directly with issuers. As such, we have chosen not to formally commit to the Code. However, we support the principles of good stewardship and responsible investment and apply them in a manner consistent with our clients' objectives and our investment approach.

This statement is reviewed annually and updated as necessary.
